Product Safety and Quality Management policy

The Directors and management of Kingston Carton Company Ltd have implemented and maintain a documented system of Product Safety and Quality Management supported by a Hazard Analysis and Risk Assessment system which meets the requirements laid down in the BRCGS Packaging Materials Standard.

The primary objectives of **Kingston Carton Company Ltd** are to supply folding cartons to its customers, to be an excellent supplier in terms of service and quality – something which the Company and its members strive to achieve in all cases. These objectives are established and reviewed at Management Review meetings to ensure product supply and customer satisfaction.

The Quality Assurance systems and procedures contained in and referred to by this Manual have been carefully compiled to ensure all employees of Kingston Carton Company Ltd will adhere to the required accuracy.

By adopting this standard, it is our intention to supply safe and legally compliant products to the specified quality whilst meeting our responsibility to our customers.

Kingston Carton is committed to the process of continual improvement of the sites product safety and quality culture.

It is also our commitment to our customers that we are dedicated to the manufacturing of cartons to a standard required for the food and healthcare sectors, an area that we pride ourselves. These standards are indicative of our overall desire to produce cartons covering all market sectors in order to meet customer requirements on an on-going basis.
